

WROUGHT ALUMINUM ALLOYS

WARNING

- Do not melt product without adequately drying. Trapped moisture can result in explosion
- Flammable solid: dust, fumes or powder may result in explosive mixture in air. Chips, turnings, and dust easily ignite. Provide adequate ventilation and keep workplace clean
- When heated product does not change color, may cause severe burns when hot
- Dust, fumes or powder may irritate eyes and skin
- Ingestion of large amounts of dust may cause irritation, nausea and diarrhea
- Inhalation of dust may irritate nose, throat and respiratory tract
- Product may contain residual coating which may add to skin sensitization
- Products may have sharp edges. Use caution when opening or handling

See Beneke Wire Company Safety Data Sheet for additional information and specific chemical warnings and hazards.
